Mr. Kesler,

The Final Rule was published in the Federal Register on 3/22/2017 (see attached).

Regards,
Bill C.

Mr. Kesler,

Although the petition has been completed, the Federal Register notice cannot be published at this time due to the recent restrictions placed on the Agency. We request an additional 60-day extension of the PRIA date to March 24, 2017.

Hopefully, the restrictions will be lifted by that time.

Subject: Petition IN-10949

Mr. Kesler,

Due to administrative delays, the Notice of Filing for IN-10949 has just been published on 11/30/2016. In order to have the required 30-day public comment period and type-setting for the Final Rule, we will need more time to complete the petition for fatty acids, montan-wax, ethoxylated (CAS No. 68476-04-0).

We request an extension to January 24, 2017.
